Activities at Home:

Through this topic, we will be exploring more about money matters and how to take care of our bodies. Our suggested activities are:

- You may talk about proper hygiene and self-care routines with your child whilst you go through the day. Discuss why it is important to take care of our body.
- Get your child familiar with local bills and coins by letting them accompany you in your grocery shopping.
- Make a DIY piggy bank and explore the idea of saving. You may send the piggy bank to school for a show and tell.
